

## Online Brides

The Added Touch has partnered with Quad 4 Technologies to produce websites for the bride to be. Why would a bride want a website?

- Tell "The Story" of how you met
- Show off your pictures in a photo gallery
- Publish your gift registries
- Save money by having your wedding guests RSVP via the website
- Show wedding event locations using integrated Google maps
- Online guest book
- And much more

Special discounted pricing is offered to customers of The Added Touch. Contact us for more information about a bridal website.
